THE LARCHMONT Y. C.'S GROUNDS. J. R. Palmer in Placed at the Thirty-yard Mark and Carries Of the Monors of the Bay-I. T. Davenport, Fred Hoey, and Capt, Money Divide Several Sweepstakes.

Quite a large delegation of club men and wing shots journeyed to Larchmont yesterday to wit-ness one of the Larchmont Yacht Club's weekly pigeon-shooting competitions. A number of crack shots were present, but there was one noted wing-clipper absent, George Work, who is shooting big game in the Rocky Mountains, Considering the force of the northwesterly gale and the high quality of the birds furnished by Fred Kepf, the scores were unusually good, Among the contestants were Fred Hoey, L. T. Davenport, J. K. Palmer, and Capt. Money Palmer, who has been put back to the thirtyyard mark, shot in great form, as usual, and secured a goodly portion of the entrance fees. Hoey also shot well from the thirty-one-yard mark, while Capt. Money and Davenport more

Before the regular events were called Palmer defeated J. T. Taylor in a twenty-five-bird match by one bird, the winner killing 23 to Taylor's 22. In the opening event at five Palmer and Davenport killed all and divided. The second sweepstakes, which was held under similar conditions, resulted in a tie between Capt. Money and Davenport, each killing four birds. A miss and out affair followed. After Palmer and Money had killed five straight they agreed to divide.

In the next sweep, which was also a miss and out event, Hoey and Money were the only ones to kill two birds. They divided the stakes. to kill two birds. They divided the stakes. Then a ten-bird sweep was decided. As the wind had increased to half a gale, none of the shooters came off with a clean score. Palmer and Davenport tied at nine birds, and another division of the stakes was made. Hoey and l'aimer divided the next event by killing nine out of ten hirds. An optional ten-bird affair followed, and this time Hoey succeeded in killing ten straight. He had to divide the pot, however, as Davenport also had a clean score. Two other small sweeps followed. All the contests took place under Larchmont Yacht Clubrules, fifty yards boundary. W. S. Alley was the referee. The summary:

The political situation in the L. A. W., now that the annual election of officers is close at hand, is puzzling the delegates in the various divisions, for with half a dozen candidates for the office of President they are in a quandary as to how to cast their votes. Within the past few reeks the L. A. W. legislators have viewing the outlook, as both H. E. Raymond and L.B. Potter have refused the nomination With these two men out of the race the field, it claimed, is left to Messre. A. C. Willison of Baitimore and Sterling Elliott of Boston. The lack of strong candidates at this late date

for the office places the L. A. W. in an awkward eodore F. Meserles, ex-secretarytreasurer of the New Jersey division of the L A. W., informed THE SUN reporter that he was dency, but as he seemed reluctant to accept the dency, but as he seemed reluctant to accept the office, he thought that Sterling Elliott of Boston was the proper man. Meseries believes that Elliott's standing in the League qualifies him for the position. He does not think that Charles 8. Luscomb stands any chance of a reflection. Chief Consul Isaac B. Potter of the New York State division is also a Raymond man. Next to Raymond he advocates the election of A. C. Willison. Potter does not believe any man from this section will seek the office, and now that Willison is a member of the Executive Committee of the L. A. W., he feels that he should have the office.

the office.

[Ritchie G. Betts of the Manhattan Bicycle Club of this city, and a delegate to the National Assembly, says that in his opinion the executive offices would remain unchanged for another term. While he is unaware what President Luscomb intends to do, he believes that in the event of his standing for a renomination he will be successful.

## BURNED IN AN ALCOHOL BATH. Cycler Gannon Severely Injured in the Philadelphia Race.

PHILADELPHIA, Dec. 22.—Only two men remain in the six days' bicycle race, Ashinger and Forster. Gannon was badly burned at 8:30 clock this morning while taking an alcohol bath, and he was taken to a hospital, where he will be compelled to stay for several days. His first mishap to-day was in the early morning. when he ran into a pedestrian while the latter was crossing the track. The plucky rider was thrown from his wheel and fell on his head. He was considerably shaken up, but after a rest of two hours he again recumed, only to go down in a collision with the other contestants. He was then carried from the track and given the alcohol bath which resulted so disastrously.

The burning occurred when Trainer Petiti had temporarily left his charge, but Gannon's cries soon brought relief, and the fire was extinguished. The bleyclist is severely burned about the legs.

Ashinger and Forster both left the track at 9 o'clock, and at noon they had not reappeared. The men are evidently reserving their strength for a final apart to-night. The score at noon was: Ashinger, 1,242; Forster, 1,292; Gannon, 1,487. thrown from his wheel and fell on his head. He

was: Ashinger, 1,242; Forster, 1,202; Gannon, 1,557.
The race ended at 10:27 o'clock to-hight when Ashinger had scored 1,300 miles and Forster 1,235. Gannon, who was injured this morning, did not again appear. These three men will receive a share of the receipts.

Six men started in the race on Monday, three of whom, Starbuck, Swank, and Meixell, dropped out early in the week. The attendance during the week has been very light. The amount tached by the three bicyclists was not announced.

It is said that the Football Rules Committee Frank Corne has been reflected captain of the brange A. C. football eleven. The Atlantic Field Club defeated the Scrantons at Bay Ridge yesterday by the score of 18 to 0. The Logola Union logs were very successful on the octobal field this year. They played ten games, and seem successful on each occasion. Maurice Flood was or good at quarter back in giving the signale that he has been elected capitals of the feam 60° heat year.

THAT CHALLENGE FOR THE CUP. Now the Royal Tacht Squadron Promise

to Take Action on Jon. 7. There was little new to chronicle in the Amerca's Cup situation yesterday beyond the fact that the date of the Royal Yacht Squadron's special meeting has been postponed from Jan. to Jan 7. The change was made, it was said, in deference to the wishes of the Prince of Wales the Commodors of the squadron, who could not be present on the first mentioned date on account of previous engagements. Secretary Grant cabled Chairman Smith of the America's Cup Committee announcing the date of the squadron's special meeting as follows:

Smith, Fucht Club, New York: Thanks for your cable. Special meeting fixed to Jan. 7. (PAST. Senth. Fucht Chub. New York:
Thanks for your cable. Special meeting fixed for Jan. 7.

Ex-Commodore Smith yesterday was as usual hopeful of a race, and in discussing the subject with THE SUN reporter, said:
"I have always been of the opinion that there would be a race. I see no reason to change my opinion at this late hour. As a matter of fact, I am more confident than ever that there will be a series of international contests for the America's Cup off Sandy Hook in 1895. We have certainly done our part, and more than met the English yachtsmen half way.

"We simply ask in return that the deed of gift be acknowledged. That is all there is in the way of a race. The Royal Yacht Squadrow now. I see no loophole by which they can escape a race, If the squadron does not accept our ultimatum, Lord Dunraven will certainly be placed in an unenviable and awkward position.
"It is my earnest hope and also that of my colleagues on the committee that there will be a race and that the best boat may win. If that boat happens to be the Royal Yacht Squadron's representative a receipt will have to be signed before the America's Cup leaves New York, and that receipt will be an agreement to hold the cup according to the terms of the deed of gitt. The cup, however, has yet to be win.

"Our cup defenders have not been heard from yet, but there will be an agreement to hold the cup according to the terms of the deed of gitt. The cup, however, has yet to be win.

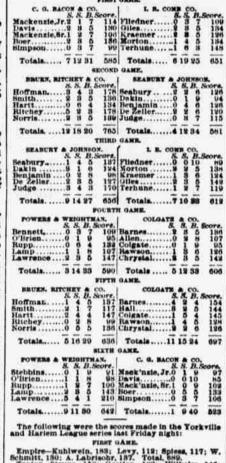

"Our cup defenders have not been heard from yet, but there will be new ones if the squadron agrees to ratify their former challenge under our terms, and I am certain that some of the old boats, when put in racing trim, will take more beating than the lost Valkyrie could give them. If there is no-race toe Royal Yacht Equadron will have themselves to blame."

The Remodelled Thetis.

Boston, Dec. 22.-The yacht Thetis, which has been remodelled at Lawley's by E. P. Baugh of Philadelphia, was successfully launched at City Point to-day. Her owner had come on for the launch, and was present with a party of friends. The yacht had been decorated with flags by her skipper, Capt. Perry, and presented a very pretty appearance. As she took the water the yachts in the basin dipped their colors About fifteen feet have been added to the Thetis's length, and she has a long overham to her bow and a handsome stern. When launched to-day she floated well above her lines. She is painted white, and will have a schooner rig, with a good-sized cruising-sail plan. The Thetis was the first of the compromise American aloops, and many of the good points found in her were later embodied in the Puritan. She la a particularly able boat in a strong wind and heavy sea.

He Tells the Difference Setween the Cases of Pfosfer and Barnie. WASHINGTON, Dec. 22,-President Young of the National League has returned to the city from a meeting of the National Agreement Committee at New York. "The committee could not have taken any other action than it did in the case against Fred Pfeffer," he re-marked. "His letter was a peculiarly worded document, highly unsatisfactory, and did not snow a single reason why his disabilities should be removed. Besides, there was ample evidence in the hands of the committee to show that he had tampered with players during the time that he was under contract to the Louisville

Ciub. In the light of these facts, there was nothing left but to declare him perpetually incligible to contract with clube or leagues working under the national agreement.

Barnie's case was different in some respects. He showed to the satisfaction of the committee that he had not in any manner become identified with the proposed opposition organization until after his release by the Louisville Club, and, therefore, he was declared eligible. However, he did identify himself with the opposition shortly after his release, and to this the committee took exception. In going to the other side he made war on the national agreement, of which he himself was one of the framers, and naturally, for the good of the game, the committee insisted that he put himself on record as owing allegiance to the agreement to prevent in a measure another backaliding. This he refused to do, and that is where the matter stands.

"We were very careful to have a stenographer in the room during the time he was making his defence, and when that matter is ready for publication followers of the game will understand the whole business better than I can explain it just now. I don't see what objection he could have to admisting allegiance to a measure which he helped to frame and which is the mainstay of the game." Club. In the light of these facts, there was

Postmaster Dayton in Conference at the Post Office Department. WASRINGTON, Dec. 22.-Postmaster Dayton

of New York was at the Post Office Department to-day and had a conference with First Assistant Postmaster-General Jones in regard to the rearrangement of the messenger service in the New York office, Be-yond this plan, which Mr. Dayton will submit in writing, Mr. Jones says there is nothing important connected with the Postmaster's visit. Postmaster Dayton afterward said that he had come here for the purpose of looking over the report made by the Commission which recently investigated the needs of his office. The report recommends, he said, an equalization of salaries and this will cause a decrease in the pay of some of the employees, but the great majority will receive increased pay. He said he talked with Mr. Jones about having additional stations lo cated in the city, and also about a quick mail service by the electric cars. As New York city has only seventy-five newspaper and package boxes at present. Mr. Dayton has been authorized to place 125 additional ones on the streets.

Congressman William L. Wilson of West Vie. ginia will probably devote some months after his retirement from public life to literary work his retirement from public life to literary work. It is his purpose at the present time to write a political history of Congress, covering the twelve years he has been a member of the House. After the 4th of March next he will begin the collection of the data which will form the basis of the history. It is understood that Mr. Wilson will resume the practice of law in Charleston and make his literary work an incident of his legal practice. Mr. Wilson's friends asy that no tender of office under the Government has been made to him, and that he has no ambition in that direction.

Minister Andrade and Judge Jeffries of the Venezuelan Claims Commission have not yet succeeded in securing the third member necessucceeded in securing the third member neces-sary to complete the Commission. The Minis-ters from the Netherlands and Germany were requested to serve, but after long deliberations asked to be excused. But four days now remain to complete the Commission. Either Dr. A. J. W. Grip, the Minister from Sweden and Norway, or Count de Reventlow, the Danish Minister, will be re-quested to fill the vacancy.

The bill also limits the charges of sleeping cars to not more than half a cent amile for the use of a lower and one-third of a cent a mile for the use of an upper birth, nor more than half a cent per mile for the use of a seat in parior or drawing-room cars. Suitable punishment for offences committed in violation of this act is provided.

Senator Cockrell of Missouri to-day intro-duced a bill providing for a new boundary be-tween the Indian Territory and Oklahoma. The bill cuts off from Oklahoma all of the Osage country and asids to Oklahoma all the Chicka-saw country west of the Seminole line, Okla-homa thereby gaining 2,000 square miles. Pro-vision is made for an additional Supreme Court Justice to be appointed from the Chickassaw country, and the enlargement of the Legislature by the addition of four members of the council and eight members of the House. The Territory thus added is divided into counties and their county seats designated. county seats designated.

The Treasury Department has completed all arrangements for the purchase of the Philadelphia Mint site property at Spring Garden street, the Attorney-General having found the title perfect, and a check for \$505,000, the amount of the purchase money, was to-day forwarded to Mr. James Moore, the owner, who transfers all right, title, and interest in the property to the United States.

The Senate has confirmed the following nomi Charles H. Nansur of Missouri, Assistant Comptrolle Henry W. Swift, United States Marshal, District of Massachusetta.

THE PEAHEN DIED OF GRIEF. Her Friend the Terrier Was Killed by an Engle While Defending Her.

SCRANTON, Dec. 20 .- Mart, a black and tan errier, and Martha, a peahen, belonging to Cyrus Henderson of Lodi Hill, were inseparable ompanions for two years. They became attacked to each other when young, and they frolicked and roamed together all over the farm. The dog often pitched into geese and turkeys that tried to rob the peaken of food, and the peaken showed the same affection for the dog.

Last summer Markta built hernest in a thicked in an old chopping, twenty-five or thirty rods from the house. She slipped away from Mark one morning, and he hunted all day and part of the next before he found her nest. While the peaken was sitting the terrier patrolled the thicket for hours at a stretch. He killed several minks and weakels that might have injured Martha or her eggs if they hadn't been nipped in season, and one night he tackled a skunk and got the best of it.

When the peaken had been sitting about two weeks Rufus Swan, whose farm adjoins Henderson's, saw a golden eagle hovering over the chopping one noon. Swan stole along the edge of the lot to get a shot at the big bird, and the eagle ascended until it looked like a more speck in the sky. Suddenly it shot carthward at an amazing velocity, and Swan had no time to shoot. The eagle was after the sitting peaken, and it struck her so hard that her eggs were smashed, but failed to nail her. Martha fluttered into the brushwood, and the fierce hird made another ineffectual effort to nab her.

The cries of the startled peaken aroused the little terrier, who was on guard as usual. Mart gave battle to the cagle with great vicor. He was as brave as a buildog, but he had tackled the wrong customer for once. The contest was about ities a fight between a rat and a heahawk, and at the end of the bout the eagle arose leisurely with the plucky little terrier in its talonn. It salied to ward the mountain top directly over Swan, and he poppered it with buckshot and brought it down and over end. The big bird and the little dog were both atone dead when they isned away over the loss of her canins companion, and it less than a month she died.

Alderman Flyms's Fumeral. tacked to each other when young, and they rolicked and roamed together all over the farm.

The funeral of Alderman Cornelius Flynn will take place from St. Puter's Church, in Bar-clay street, to-morrow morning at 10 o'clock, and will be private. Aldermen Brown, Tait, Oakley, O'Brien, Noonan, Wund, Murnby, and Muh will act as pall bearers. The interment will be in Calvary Comotory. CONGRESS ADJOURNS TILL JAN. S.

Wonk Opposition in the Senate-The Cur-WASHINGTON, Dec. 22.-A weak obstruction was raised in the Senate to-day against the con-current resolution for the Christmas recess. Mr. George, (Dem., Miss.) objected to its considera tion, and stated very earnestly the grounds of his objection. These were that after the recess there would be but two months of the session left, and that there were many very important matters which required action to be taken upon them and which would give rise to a great deal of discussion and consume much time. He specified the Nicaraguan Canal bill, Bankruptey, bill, the Currency Reform bill, and all the great appropriation billsone of them containing the provision which would be bitterly contested, for the collection of the income tax. In view of the imbecility of the Senate rules, which prevented the compelling of action on any matter when opposed by even a very small minority, he thought that the Senate should not expose itself to a failure of the appropriation as to the income tax. The holiday sentiment proved to be irresistible, however, and Mr. George permitted the resolution to be concurred in.

Turple's three days' speech against the Nica-raguan Canal bill, but said that he would not im-

Turple's three days' speech against the Nicaraguan Canal bill, but said that he would not impose on the good nature of Senators to-day, and would let the matter stand as it is till after the holidays.

A resolution instructing the Secretary of the Navy to report why a United States ship of war has not been stationed and retained at Honolulu was offered by Mr. Lodge (Rep., Mass.) and went over without action. At 1:45 the Senate adjourned till Thursday, Jan. 3, 1895.

The Currency and Banking bill was before the House to-day. There was but one speaker in favor of the bill, Mr. Coombs (Dem., N. Y.), and he more strongly advocated postponement of the establishment of an entire new system of banking and currency in this country until conditions are changed.

There were three speeches against the bill. Mr. Bell (Dem., Tex.) expressed the opinion that the issue of greenbacks in place of national bank circulation as rapidly as it was retired would afford relief. Mr. Bowers (Rep., Cal.) said that any party which enacted legislation resulting in the destruction of the national banking system and its circulation would be ground to powder. The issue of bonds of small denominations to retire the greenbacks and the establishment of postal savings banks would, in his orinion, aid in relieving present conditions. Mr. Bryan (Dem., Neb.) spoke for two hours, making a general attack upon the bill, which he demounced as a repudiation of the principles of democratic government.

Before the discussion of the bill was entered upon several bills were passed by unanimous consent, Mr. English (Dem., N. J.) being complaisant to the extent of four of these measures. Then he demanded the regular order. At 5:10 P. M. the House, under the operation of the concurrent resolution providing for a holiday recess, adjourned until Thursday, Jan. 3, 1895.

SPRINGER IS HOPEFUL.

He Professes to Believe that the Amended Currency Bill Will Pass the House,

WASHINGTON, Dec. 22, - Representative pringer of Illinois expressed great confidence to-day that the substitute reported by him yes erday for the Carlisle Currency bill will pass the House by a fair majority. He believes that the Democratic members from New England, New York, Pennsylvania, and Ohio will be a unit in support of the measure, and that it will receive a fair support in the West and Northwest, as well as the united vote of representa tives from the South. Referring to the "weak-ness" of the Carlisle bill, as it was characterized by its opponents, and to the fact that that measure has been so materially modified by the substitute reported yesterday, Mr. Springer said:

We never claimed perfection for the Carlisle bill. It was not entirely satisfactory to the Secretary or to myself. But it gave us a basis to work upon and enabled us to modify it in the House instead of in the committee. Our substiute is about what we would have reported from the committee, but it would have taken us all this time to have agreed upon the substitute, and meanwhile debate upon the general princi-

and meanwhile debate upon the general principles involved in the bill would have been postponed. Under the circumstances, it is better to have adopted the course we did, and by securing debate upon the measure develop its weaknesses and correct their without delay.

It is the purpose of Mr. Bland, which the Currency bill is taken up for debate under the five-minute rule in the House after the holidays, to make a motion to strike out all after the enacting clause, and to substitute the Free Coinage bill introduced by him yesterday, an abstract of which has already been given. This will be, Mr. Bland says, the most expeditious manner of getting a free sliver bill before the House. The members of the Coinage Committee are scattered, and there is no probability that such a bill could be reported from the committee for several weeks, if, in fact, it were possible to secure a favorable report at all. Mr. Bland has made no canvass of the House to determine what success his bill will have, but he is certain that it will command a large vote. He intends to exhisin on that occasion the difference between a bimetallic and a paper system of money. He will show that the Democratic party has always favored a specie instead of a paper system of money. He will show that the Democratic party has always favored a specie instead of a paper system of money. He will show that the Democratic party has always favored a specie instead of a paper aystem. hen Benton, Jackson, and others held the party leadership.

CHARGES AGAINST JUDGE CLARKE. Judge Key, Whom He Was Nominated

ceed, "ays there is Nothing in Them. WASHINGTON, Dec. 22.-Several Tennesse gentlemen called to-day upon Attorney-General Olney in regard to the charges preferred against Judge Clarke, recently nominated and con-firmed to be United States District Judge for the eastern and middle districts of Tennessee but whose confirmation has been reconsidered The charges consist of unprofessional conduc on the part of Judge Clarke, who was counsel in a case before Judge Key, the present Judge of the same district. Judge Key has notified Senator Harris that he (Judge Key) is entirely familiar with the record of the particular case in

and having that he dunge Rey) is entirely familiar with the record of the particular case in question, and there has been no unprofessional conduct on the part of counsel.

The gentlemen also sought a hearing before the Judiciary Committee, but no quorum being present nothing was done. They informed the individual members of the committee who could be seen that the friends of Judge Clarke believe there is nothing in the charges. They court the fullest investigation, and have left a request that the Judiciary Committee appoint a subcommittee to go to Chattanooga and personally examine the records of the court.

The poculiar situation of the case is that Judge Clarke was confirmed by the Senate upon Senator Harris's personal assurances that there could be no objection to the nominee, and upon notice from the Attorney-General of the filing of charges the notice to the President of Clarke's confirmation was recalled the matter thus being left entirely with the Judiciary Committee and out of the control of the President. Nothing will be done, however, until the reassembling of the Senate after the holidays.

A SUBMARINE TORPEDO BOAT. Secretary Herbert Decides to Have One Constructed of the Holland Type.

WASHINGTON, Dec. 22.—Secretary Herbert co-day decided to enter into a contract for the construction of a submarine torpedo boat of the Holland type. The question of building such a vessel was referred some time ago to the Board of Construction, which reported in favor of the

of Construction, which reported in favor of the proposition.

In view of experiments concerning the effect of explosives under water, the Secretary decided to look into the matter more carefully, and referred it to the bureaus of Steam Engineering and Construction and Repair, requesting them to decide if it were not advisable, in view of the experiments, to increase the thickness of the plating on the vessel, and if \$15.50,000 was a reasonable price for such a vessel. The bureaus after a careful consideration, reported in favor of increasing the thickness of the plating from three-eighths of an inch to half an inch at the best, tapering to three-eighths of an inch at the ends. The boat will be contracted for with these modifications, the price being satisfactory.

Bo Accepted. WASHINGTON, Dec. 22.-Mr. Carnegle has had

a conference with Secretary Herbert regarding the rejection of the armor for the barbettes of

the Oregon. A plate representing this group of plates was sent to the Indian Head proving ground and submitted to a ballistic test. The plate failed to pass. Mr. Carnegie said that he plate failed to pass. Mr. Carnegie said that he was willing to do anything that the department might wish and accept any condition which it might see fit to impose.

The Secretary upon investigation found that the shote fired at the plate were much more severe than the ordinary service charge, and that the plate in question was much weaker than those it represented. The fethishem Company in a similar test alipulated that if the plate cracked on the first shot it should not be rejected. No such atiquiation was made in the Carnegie case. The Secretary has taken all these matters into account and has decided to accept the group of plates, which reports from the flowernment agent at the works say will come up to requirements. COMPROMISE WITH THE CITY.

Settlement of Littgation Over the Owner-ship of North Siver Piers. A settlement was reached yesterday in the dispute between the city, the Pennsylvania Railroad Company, and the Associates of the Jersey Hallroad and Canal Company over the ownership of old piers 39 and 40, North River, which are at the foot of Desbrosses street, and are occupied by the Pennsylvania's ferry houses. Two years ago the city proposed to ex-tend the bulkhead line, but the railroad comtend the bulkhead line, but the rational companies objected, on the ground that they had been in possession more than twenty years and the city's interest had lapsed.

Suit was begun by the Corporation Counsel in the Supreme Court for possession of the property and for \$100,000 as compensation for the twenty years' occupancy. The suit was afterward transferred to the United States Circuit Court, but before it was brought to trial the railroads offered to compromise by recognizing the city's ownership of the land and bulkheads in fee simple, provided the Associates of the Jersey Railroad and Camal Company were adjudged the owners of the ferry houses, wharfage, and other improvements made on the piers and that the Pennsylvania Railroad Company be left in possession of the property during the existence of the lease. A further condition was that in case the city should extend the bulk head line the companies should extend the bulk head line the companies should be permitted to move the ferry houses correspondingly. The proposition was considered by the Dock Board on Sept. 20, and the Corporation Counsel was directed to accept the offer. On his motion, Judge Lacombe entered Judgment yesterday on the basis proposed. panies objected, on the ground that they had
